

Hammond Health

Professional Medical care from pre-natal to end of life

About our practice

Hammond Health is a fully accredited, private billing, General Practice that was established in 2019 in the regional town of Wagga Wagga, with a view to providing high quality patient centred care. As Hammond Health has grown our three very experienced doctors have each pursued their areas of interest which has resulted in a practice of diverse experience that is a joy to work in.

Our doctors are supported by a well-resourced administrative team as well as our small nursing team, who each bring a wealth of knowledge and care to our patients and their families.

Recently Hammond Health has moved into our new facilities which has allowed us to begin a program of expansion, focusing on areas of preventative health as well as the areas of special interest that each doctor has.

Where we are

Hammond Health is located on Fitzmaurice Street, part of the Wagga Wagga Central Business District. Our practice is surrounded by cafes, restaurants, and many boutique stores, all within walking distance of the Murrumbidgee river.

Wagga Wagga is a vibrant regional centre on the banks of the Murrumbidgee River in the heart of the Riverina and is the half way point between Sydney and Melbourne. With four distinct seasons, there's always something new to explore. Discover the delicious food and wine scene, wonderful galleries, tranquil riverbank walks, gorgeous gardens and parks, and fascinating heritage.

What we are looking for

Hammond Health is seeking a Vocationally Registered GP with current AHPRA registration to work either full time or part time in our successful General Practice in Wagga Wagga NSW that boasts a strong patient base, and an extensive waiting list.

Independence and Flexibility

Hammond Health values your clinical independence and supports your ability to practice, treat and refer patients as you wish. With flexible individual business arrangements Hammond Health accommodates your ability to work in harmony with your family and/or lifestyle needs.

Professional Medical care from pre-natal to end of life

Training and Specialisation

Hammond Health encourages ongoing development as a medical practitioner and supports all of our doctors to engage in areas of special interest as well as ongoing professional development.

Collegiate Support

The team at Hammond Health work closely together to ensure that we have a collegial and supportive environment for the benefit of staff and patients. Our doctors work collaboratively, meeting regularly to provide clinical support and coverage of our patients at all times.

Remuneration

Our GPs work as independent contractors and receive a percentage of gross billings commensurate with experience.
